

Efficient and **transparent processes** with SAP Business One and Boyum IT

Company Name

REUTER TECHNOLOGIE GmbH,
63755 Alzenau

Industry

Industrial Machinery &
Components

Products and Services

Manufacturing of high-precision
components as well as the
joining of components by
means of vacuum soldering

Number of employees

60 employees

REUTER TECHNOLOGIE GmbH is a mid-sized family business with about 60 employees at two locations. Its core expertise lies in the manufacture of high-precision components, mainly from copper and stainless steel, as well as the joining of components by means of vacuum soldering. The customer base consists of the semiconductor industry, special mechanical engineering, thin-film technology as well as industry and research.

Why choose Boyum and our add-on:

- Before the implementation of SAP Business One and beas Manufacturing, each division had its own stand-alone solution, and there was no uniform database.

Functionalities that are included in Boyum add-ons:

- SAP Business One and beas Manufacturing is a powerful solution that came closest to REUTER TECHNOLOGIE's requirements.
- The AdS Consulting team convinced us with their high level of competence and understanding of our needs

Which benefits have you achieved after the implementation:

- The uniform database and high data quality provide the company with transparency throughout the entire business process.
- Current evaluations enable a location determination and an efficient control of the company.

“For me, SAP Business One and beas Manufacturing mean high data quality and transparency across all business areas”

Florian Reuter, CFO, Reuter Technologie GmbH
