SAP Solutions
SAP Business One®, Beas
Manufacturing

Muhr Metalltechnik is an original equipment manufacturer of automotive components with sites in Germany, Poland and the US and over 200 employees. The growing company was running three disparate software solutions across the business, which hampered warehouse planning and production management, and constrained flexibility. Now with SAP Business One and Beas Manufacturing from Boyum IT, the company has an integrated solution and single source of the truth for all of its operations, and is realising the advantages of data quality, process continuity and accelerated logistics.

Before: Challenges and Opportunities
- Three disparate software solutions across different lines of business which lacked clarity and structure
- Complicated administration and constrained flexibility
- Problems with warehouse planning and production management

Why SAP and Beas Manufacturing
- SAP Business One and Beas Manufacturing from Boyum IT provides a complete, integrated solution
- for all business areas and a unified database
- User friendly, clearly structured solution supports data quality and process continuity

After: Value-Driven Results
- Simplifies daily workflows for greater efficiency and productivity
- Modules combine all functionalities across various lines of business
- Improves connectivity and compatibility with customers
- Provides the foundation for international expansion

"SAP Business One and Beas Manufacturing from Boyum IT are the perfect combination to expand our business internationally."

Manuel Büdenbender, Assistant Manager, Muhr Metalltechnik.
